The Music Theory & Transposing Poster

The Perfect Teaching Aid

This incredible poster makes teaching music theory as easy as DO RE MI. In addition to fundamentals such as the Circle of Fifths and the Great Staff, the poster shows in easy-to-understand graphics how music works. The Table of Keys™ uses numbers based on the major scale to represent the notes of scales and chords, making transposition quick and easy even for students who do not yet read music. The Chord and Scale Table™ lists the formulas for all the common chords and scales, showing which scales to play over which chords in all styles of popular music. This poster also shows how to write chord charts and transpose chord progressions with the “Nashville System” used by professional studio musicians. This new poster is a must for every school music room and teaching studio.

Size: 24"x36"

Only \$9.99 (paper) or \$19.99 (laminated)

5 Poster Classroom Special

Five Great Music Teaching Aids for **ONLY \$35 (paper) or \$75 (laminated)**.
